Mr. F. G. Whittingham has a

Those who attend the concert to
be held in town Oct. 17th will have
a rare treat, as Mr. Bengough is a
clever cartoonist and caricaturist,
and a host in himself. He draws
crowded houses every time, and
never fails to please and instruct.
The prices of admission 35c, and
50c, will be within the reach of all,
and very likely many from this
section will avail themselves of the
opportunity, as he may not appear
here again for some time.

T. J. Wilson will attend the
Teachers' Convention which meets
at Wolsley Thursday and Friday,
12th and 13th inst. Although

actually in progress.

TWENTIETH CENTURY MOVE- MENT.

The Twentieth Century Move-
ment, just now being explained in
the religious press and taking the
attention of the Methodist, Presby-
terian and Baptist denominations
in Canada and the United States,
was first started by the Methodist
Church in England, where they are
to try and raise \$1,000,000 before
the end of the century. It then
spread to the Presbyterian Church
in Ireland, and was lately taken up
in America.

The Methodist Church in Canada
are aiming to raise, as a thank-
giving fund, \$1,000,000; the Pres-
byterian Church, \$1,000,000; and
the Baptist Church also intends
raising a large sum.

THE OBJECT.

Some will wonder why so much
money is being raised. Well, to
answer briefly: many of the edu-
cational institutions of these de-
nominations are not paid for; church
debts are numerous throughout
the country; missionary work
has ever been curtailed, as it were,
owing to the lack of funds to ex-
tend the work, and other good work
cramped for the same reason. With
the amounts desired the educa-
tional institutions and the churches
carrying debts can be placed on a
good solid footing, and the work
spoken of aided and pushed forward.
It will be the means of restoring
faith in the Christian cause. It is im-
possible to calculate all the movement
will do for these branches of the church.

The idea is to give every in-
dividual member or attendant a
chance to contribute a thanksgiving
offering towards the fund. "It is
more blessed to give than receive,"
and all are desired to participate in
the blessing derived from giving
cheerfully.

What the Churches are hoping
and working for is a spiritual re-
vival among the people, such as to
open their eyes to God's great
goodness to them, and so induce
them to cheerfully give unto the
Lord of their substance. The
money part of the movement will
be of little lasting good without the
other.

In the Methodist churches
throughout the Dominion the
movement was explained last Sun-
day.

The trustee board of the local
church have chosen Sunday, the
5th of November, as the most suit-
able time for taking the offering.
As the church has had a debt of
over \$300 for some years, it is the
intention of the trustees to obtain
permission from the General Con-
ference to apply all the "Twentieth
Century Thanksgiving Fund" col-
lected by them to clear off this
debt. Then they hope that by
making a supreme effort they will
be able to pay it all off before the
end of next year.

The Presbyterian church here
will not take any special collection
this year; but will give a certain
amount out of their surplus each
on hand, and will take up a special
offering next year.

REASON FOR TRANSPARENCY.

One has only to look back at the
inconvenience endured and the
comforts they were without to
realize how much better we are
situated. The country has been
blessed with the introduction of
many great inventions and ad-
vancements made along every line.
Surely we have cause for thank-
sgiving.

This year has been one in which
this country has been specially
blessed with good crops, and the
amounts raised should be large.

The wide-awake buyer gets his
goods from the man who advertises.
Why? Because the latter has less
shopworn goods and keeps abreast
of the times. Hence the adver-
tisement shows where to go. Con-
sult our advertising columns and
act accordingly.

CONCLUSIONS

"Ah, darling, I knew you would do so. I have felt from the first that my noble Bruno was no mere fortune hunter. What is the condition, dearest?"

"That you will prove you do not marry me only for my title," he replied.

terday. A very strange thing occurred to a friend of mine then, and now I do not know whether I am superstitious or not. It happened in this way:

A BRAVE WOMAN.

How a Drunken Husband Was Made Sober Man by a Determined Wife.

Ginger is a tropical production of Mexico, where it grows wild. It has been cultivated from an early period in tropical Asia.

The most remarkable shawl in the world is one belonging to the Duchess of Northumberland. It is made entirely from the fur of Persian cats, and many thousands of skins were used, the weaving taking several years. Although this shawl is eight yards square, it can be compressed into a space no larger than a coffee cup. It was formerly the property of Charles X. of France.

THE KAFFIRS RAIDING

BUSINESS PLACES AND HOUSES IN THE EAST RAMP.

Indian Transports Arrive at Natal With 2,500 British Infantry and Cavalry.

London, Oct. 6.—A dispatch from Johannesburg reports that the Kaffirs are raiding the business places and houses in the east ramp. The whites fired on them. A special force of police has been dispatched to disperse the raiders.

London, Oct. 6.—Nothing new has developed as to the Transvaal situation since morning. The Daily Telegraph's dispatch of this morning announcing that the Boers had invaded Natal and seized Laing's Nek, now seems to be without foundation. The government has received nothing to justify the report, although such a move would cause little surprise. The British position in Natal was considerably strengthened by the arrival of Indian transports with reinforcements of about 2,500 infantry and cavalry, all of which will be promptly sent to the front by train, and with their arrival at Glenore and Ladysmith tomorrow the British advanced camps and lines of communication will be practically safeguarded against the risk of a successful dash across the frontier by the Boers.

The military authorities apparently no longer fear the massing of the Boers along the border, and in fact, it has been provided that the Boers shall not make a sudden invasion in the Territory. The Natal authorities are rather pleased with this because they argue, the tension of waiting will tell severely on the Boers' discipline, and, moreover, they will soon exhaust what little food there is near the border and be compelled to fall back on their base, because in view of the ineffective commissariat they are unwilling to advance into Natal leaving behind them a foliaceous void.

While there is no diminution in the flood of dispatches from South Africa recording with almost tireless iteration the military preparations, and movements of both sides, with all kinds of accurate and inaccurate rumors and speculations, the real situation remains unchanged. It is evident that strong efforts are still being made to preserve peace simultaneously with determined energy to be prepared for any emergency. It is expected that the 5,000 reserves will be called out tomorrow, and that an army corps will be mobilized on the 15th or the 20th of the month. In the meantime, it is interesting to note that neither side shows any anxiety to start a general conflict, but is rather inclined to give opportunity for the play of peace influences.

From other Newcastle advices it appears that the premier of Natal had said to the military authorities that they can render Newcastle assistance, adding that if the Boers intend to attack the town resistance would be futile and the women and children should be sent away and the town surrendered.

LORD MINTO

A Guest of Sir Rodrick Cameron at Staten Island.

New York, Oct. 6.—The Earl of Minto, Governor-General of Canada, and Lady Minto, who have been the guests of Lord S. Bryce, at his home in Washington Square, left there yesterday afternoon and went to the home of Sir Rodrick Cameron, at Grassmere, Staten Island. Lord and Lady Minto will be Sir Rodrick's guests until Saturday, when Lady Minto will sail for England, and the governor will return to Canada and resume his official duties. Sir Rodrick entertained a party at dinner last night in honor of Lord and Lady Minto. There was a reception following the dinner.

British Troops on Somali Coast.

Paris, Oct. 6.—According to a dispatch from Ras Kibiri, on the Gulf of Aden, the Indo British troops recently landed on the Somali coast, and fought near Berbera on a bay of the Gulf of Aden, with the forces of an Arab chieftain, named Rikik Mohammed Saleh, who has been proclaimed Mahdi by the Hinterland Mussulmans, who are instigating an uprising of the Somalis against the Abyssinians. During the fight twenty-seven Somalis were killed.

New Telegraph Line to Dawson.

Montreal, Oct. 6.—The Canadian Pacific railway today officially announced the opening of a new telegraph line to Dawson. The tariff will be announced later.

Victoria, Oct. 6.—Michael Powers, one of the best known saloon keepers of Victoria, who was known largely by unknown assailants on Sunday morning, died from his injuries today. The police are following up the case, and that of the homicide of the "Jack the Ripper" murder, which occurred the previous night, but no clue has yet been obtained.

THE SHAMROCK AHEAD

By Half a Length, but Neither Vessel Reached the Half-Way Bay.

New York, Oct. 6.—Again today the sea refused the Shamrock and the Columbia a field of conflict; again today the multitude which went out to sea to watch the contest for the international yacht racing championship of the world, returned disappointed and not a little disgusted. The question of the supremacy of the two great yachts is still as much an open question as before they first met, as the contest today was in some respect more of a fuke than that of Tuesday. It was a drifting match almost from start to finish.

Crossing the line with a breeze of five knots an hour, it never blew more than six, most of the time less than three, and part of the time not a breath of air was stirring. After sailing four hours and forty-three minutes, the yachts having covered only twelve miles of the course to the outer mark, the regatta committee declared the race off, as it was manifestly impossible with the breeze then blowing for the fleet racers to round the stakeboat before the limit expired, much less to get back home again. During the time in which the yachts were at it, the wind which carried them dead before it over the line, had hauled around until, at the finish, they were beating in to its teeth.

Christian End afar.

Montreal, Oct. 6.—The first Dominion convention of the Christian Endeavor societies of Canada was opened in St. James' Methodist church tonight. A large number of delegates from Ontario, Quebec and the Maritime provinces have arrived to attend the convention, which will continue until next Tuesday. This afternoon the meeting received reports from executive officers. This evening G. Tower Ferguson, chairman of the Canadian council, presided. The convention opened with a short praise service, devotional exercises and words of welcome by James Wilson, chairman of the Montreal 1899 committee and others, with responses by Rev. S. P. Rose, D.D., Ottawa, vice-chairman and the presidents and representatives of all the provincial unions.

Monsieur Farrelly Injured.

Bellefleur, Oct. 6.—Rev. Monsiour Farrelly met with a painful accident last evening but fortunately it is not serious. He had been attending a meeting of the separate school board in the council chamber and started for home ahead of the other members. When nearly at the foot of the first flight of steps he mistook the last step for the landing, with the result that he fell heavily to the floor and was badly bruised about the head. He was rendered unconscious by the fall, but was soon surrounded by members of the board who helped him to the fall, and a physician was called. He soon regained consciousness and was driven home.

Disabled Steamer in Tow.

Melbourne, Australia, Oct. 6.—The disabled British steamer Waikato, which sailed from London on May 4, for Lytleton, New Zealand, and soon long time was unharmed of till spoken on August 2, in latitude 29 south, longitude 49 east, with a broken shaft, is reported by the British steamer Ujma, which has arrived here from Calcutta, to be in tow of the British steamer Astoria, Capt. Larnet, from London, August 4, for Fremantle, and it is expected to reach Fremantle by Oct. 4. The Waikato is being towed by a steamer which left the same port exactly three months after her, and she has crossed the Indian Ocean, from the south coast of Africa, since she was spoken disabled.

Defeated Again.

Vancouver, Oct. 6.—The Toronto Lacrosse club was beaten again today by the Westminster team by a score of 7 to 3. They are evidently no match for the English Canadian champions.

ORANGE FREE STATE

HAS MADE NO PREPARATIONS FOR THE COMING STRUGGLE.

Seizure of Treasure Train Regarded as an Act of War—Pretoria Banks' Gold Confiscated by Transvaal.

Bloemfontein, Oct. 3.—The government publishes a telegram from Roshof stating that the British forces have crossed the border and that fighting has commenced. Another telegram says the troops have crossed the border but that no fighting has occurred. The government discredits the report.

London, Oct. 5.—Other telegrams represent that a Boer attack upon Natal is expected at any moment, but assert that Commandant General Jeubert has threatened to shoot any man who moves without orders.

The London morning papers are inclined to regard the seizure of gold by the Transvaal government as an act of war.

No absolute confirmation is obtainable of the report that a Boer ultimatum has been presented, but the news comes from good Boer sources.

The Daily Telegraph's correspondent at New Castle, Natal, sends his paper a similar message to that sent by the correspondent of the Daily Chronicle, and says he is sure half of the Boers will offer no serious resistance to the British troops. "The Free State," he says, "has made no preparations and it is doubtful if it can put a thousand men in the field at present."

A special dispatch from Pretoria says the Transvaal government has seized gold to the value of £800,000 which is now lodged in the state mint. The government, the dispatch adds, will indemnify the banks to which the gold is consigned.

The Daily Mail's special correspondent at Lorenzo, Marquess, reports that H. M. S. Philmel has gone to Durban for the purpose of landing 100 men and a gun. Commenting editorially on the foregoing dispatch the Daily Mail says it considers that the action reported indicates grave danger. The chronicle, says the Daily Mail, would not countenance such a measure except in circumstances of unusual emergency and it thinks it probable that other British warships are converging silently upon the theatre of action.

The Daily Chronicle's correspondent at Cape Town says Mr. J. H. Hofmeyr, or, the Daily Chronicle's correspondent, says the Daily Mail, would not countenance such a measure except in circumstances of unusual emergency and it thinks it probable that other British warships are converging silently upon the theatre of action.

The Daily Chronicle's correspondent at Cape Town says Mr. J. H. Hofmeyr, or, the Daily Chronicle's correspondent, says the Daily Mail, would not countenance such a measure except in circumstances of unusual emergency and it thinks it probable that other British warships are converging silently upon the theatre of action.

A dispatch from Volksrust says the Boer campaign on the Onak border now comprises 8,000 men and is growing daily. The camp breaks with outrageous ferocity. One of the largest corps lay on the veldt without shelter during a heavy thunder storm. Commandant General Jeubert is momentarily expected to assume command of the Boer forces.

A London news agency publishes the following report from Volksrust Transvaal, dated Oct. 3: "A confirmed report is in circulation here that the time allowed the British troops to withdraw from the Transvaal border will expire at 4 o'clock tomorrow afternoon, and that failure to comply with the demand will be considered tantamount to a declaration of war."

The British legation office at 6 o'clock assured the Associated Press that absolutely nothing was known there of any Transvaal demand for the withdrawal of the British troops from the frontier.

Greely has purchased a similar balloon for the United States government.

ELEVATOR COMMISSION.

Names of Those Recommended by the Minister of the Interior to Act.

Ottawa, Oct. 5.—A great deal of discussion has taken place in reference to the bill which was brought before parliament at its last session to provide for the inspection of elevators and for the construction of flat warehouses. The government made an appropriation to pay the expenses of a commission to investigate the subject and the minister of the interior has now made a recommendation for the appointment of a commission. The commissioners selected are: Judge Senkler, St. Catharines, chairman; W. E. Sirett, M.P.P., Glendale, Man.; Chas. O. Castle, Foxton, N. B.; and William Latham, Pictou, N. S. Bell, Winnipeg, is appointed secretary.

Judge Senkler is one of the best known and most highly respected country judges in the province of Ontario. His presence as chairman of the commission will insure an effective and impartial investigation and will command general confidence and respect. The other three members of the commission are all farmers. Mr. Sirett has been for many years a member of the provincial legislature of Manitoba, having been elected as the Patron representative. Mr. Castle is a member of the Western Grain Standards board, where he has represented the interests of farmers. Mr. Latham is a well known farmer of the Pipestone district, and was for some years reeve of the municipality in which he resides. The commission thus being constituted by the appointment of a judge whose character and ability were universally recognized, together with three independent farmers, should ensure a complete and satisfactory investigation.

It is understood that the Allan line has sold two of its best steamers to the British government to be used for conveying troops to South Africa and the company has now notified the department that they will not be able to accept the mail contract on its present terms. If slower vessels be not accepted they cannot carry it out. The matter is now under the consideration of Sir Richard Cartwright. The Elder Dempster line is now giving fairly good satisfaction.

FURNITURE COMBINE.

Twenty-two Canadian Factories Under One Management.

Montreal, Oct. 5.—A deputation, composed of W. R. Hobbs, vice president of the Canadian Consolidated Plate Glass company, R. M. Jeffery, Chicago, and G. R. Shaw, a Toronto lawyer, have been in the city some time negotiating for the formation of a new company under the name of the Canadian Export Furniture Co., with a capital of \$2,000,000. The necessary capital has been secured, it is understood, through R. Wilson Smith and Meldrum & Co. As a result of the operations twenty-two of the largest furniture factories in the country will be brought under one management. The representatives met this morning at the Windsor and practically decided to build a new factory in Montreal. Montreal has been chosen as the site of the new factory because of its being the shipping port of the country. Details of the scheme have not yet been elaborated, but the necessary capital for the enterprise has been secured. The principal firms interested in the new company are: Krutshel Furniture Co. of Hanover; The Bell & Sons, limited, of Winnipeg; Taylor Bros & Co. of Waterloo; The Antlers Manufacturing Co. of Berlin, Ont.; Messrs. Geo. McLennan & Co. of Stratford; Messrs. Hare Bros & Co. of Windsor; and the American Bait Co. of Walkerton.

Opera, Oct. 5.—Four new cases of typhoid plague and one death were reported on Tuesday.

A SLOW YACHT RACE.

SHAMROCK AND COLUMBIA MEET FOR THE AMERICAN CUP.

The Race Declared Off Because They Did Not Reach the Finish Line in the Allotted Time.

New York, Oct. 4.—As the sun set like a ball of fire behind the Navvies Hills, and the sparkling stars came out into the flawless heavens this evening, the biggest crowd of sight-seers and yachtsmen which ever sailed down the Sandy Hook to witness the attempt of a foreign cup-hunter to wrest from America the yachting supremacy of the world, returned to New York crestfallen and disappointed. The wind from the caves of ocean had proved too light and shifty and the first international series of 1500 yachtsmen ever produced by Great Britain and America, degenerated into a drifting match and had to be declared off, because neither could reach the finish line in the time allotted by the rules.

To avoid such winds as occurred today, in which the risk and not the crew and yacht win, the rules provide that if one of the gladiators does not finish within five and a half hours the race is declared off, so at the end of time this evening, when the yachts were still four miles from home, with the Shamrock leading by one-fourth of a mile, the committee officials declared that there had been no race. The yachts were then taken in tow by their respective tugs and brought back to their anchorage inside Sandy Hook. The clean-lined racers had sailed out the morning, fresh for battle, but the sea had refused them a field of conflict. Under the rules the first race is now postponed for two days, or until Thursday.

Though indecisive in every respect as to the abilities of the great rival single stickers, today's race indicates that the Irish boat, with her English skipper and her Scotch crew, is the ablest skiff ever sent across the Atlantic in the hope of lifting the 100 annua cup which America brought back forty-eight years ago, and has since successfully defended against the world. During the five and a half hours' sail the Shamrock was thrice ahead, and twice the Yankee boat showed the way. For the first time since the Shamrock left, then for the first time in 45 minutes following the Shamrock; then for three hours the Columbia; and for the last hour and a half it was the Shamrock that led the way.

CASCADE CITY FIRE

Destroys Several Hotels—Dynamite Used to Stop Progress of the Flames.

Vancouver, Oct. 4.—On Saturday \$25,000 blaze wiped out the central block of hotels in Cascade City. Dynamite was used in blowing up the adjoining buildings. One man was caught in the ruins and burned to death. It was 12:30 in the morning when the fire broke out, in the busiest block of the best built portion of the town. The water supply was inadequate, and soon the entire block was a roaring furnace. In rapid succession the Club hotel, the Rapid hotel, Grand Central and Railroad Headquarters hotels succumbed to the flames, and these were followed by Francis, Min's and the Montana hotels. Eric Arvill was burned to death while trying to save the Montana hotel. Dynamite was used to stop the flames from spreading, and Arvill was caught in the falling timber. His cries for help were pitiful indeed, but the intense heat warped off all assistance.

The Cause of It.

Campbellford Herald: In one of the hotels in Campbellford the other day a farmer of Seymour gave vent to his feelings in language that was neither choice nor poetical because he had been swindled in the purchase of an article from a stranger who had called upon him a short time before. A traveller for a western agricultural college who was one of the listeners stepped up to him and said, "Do you take the local paper?" "No," said the ruffled farmer. "I do not." "Well," said the traveller, "that explains it. I have travelled over a great part of this country, and I have found it to be the case that the great majority of the men in the country who have been 'taken in' by sharpers did not read their home newspaper."

The first snow of the season fell here on Monday night. It was but a flurry, but the storm of this morning makes it look quite wintry.

Hymneal.

About noon on Wednesday a large crowd might be seen wending their way towards the Methodist church, where a wedding ceremony was to be performed, the contracting parties being Mr. James, Balfour, of Wolsley, and Miss Minnie Wilson, of this place. The church was crowded. The nuptial knot was tied by the Rev. James Hoskin. The bridesmaid was Miss Clara Brydson and the groomsmen Mr. Broad, a resident of Wolsley. The bride was prettily attired in a dress of cream goods with white chiffon trimmings, while the bridesmaid wore a dress of pale green nun's veiling with silk trimmings to match. After the ceremony a reception was held at the residence of the bride's mother, and a large number of friends attended to wish the couple joy throughout their married life. The presents were valuable, useful, and many in number, showing, to a small degree, the respect and good wishes of the bride's large circle of friends. About 1 p.m. Mr. and Mrs. Balfour commenced their drive to Wolsley, where they will reside. We wish them joy and prosperity.
